# **Description**

If phosphorous build-up is an issue but you want healthy green turf, NK's the one for you. This balanced NK fertilizer contains slow-release nitrogen and potassium for 6 – 8 weeks of nutrition, as well as standard-release, and magnesium to boost color and minimize any signs of stress. It comes in a single-compound micro-granule form, making it easy to apply, with our patented MU2 and SiLK coating technologies. An ideal product on fine turf, from spring through to late summer.

#### **Benefits**

- Nosphate-free to help with phosphorus build-up
- Sustained-release nitrogen and potassium as well as an immediate release
- Healthier, greener turf with fewer signs of stress

#### How to use

- 1 If spilled on pavement, concrete, clothes, etc.
- 2 Brush off immediately as it can stain.
- 3 Contains iron: do not apply in case of risk of contact with concrete, marble, stone, fabric, or swimming pools.
- 4 If you need more information, please contact your technical support.
